POWER

INSECT REPELLENT SPRAY FOR HORSES

ACTS IMMEDIATELY & EFFECTIVELY

Easy to use in 4 steps for optimal protection against annoying insects.

EASY APPLICATION – IN 4 STEPS

1 PREPARE

Groom the horse before application. Remove heavy dirt, dust, and loose hair. Avoid the eyes, nostrils, and open wounds.

2 SPRAY

Spray evenly from a distance of approx. 20–30 cm onto the body, mane, neck, and legs.

3 LET IT WORK

Allow the spray to take effect briefly. For best results, use regularly – especially during heavy insect activity.

4 ENJOY PROTECTION

The horse is reliably protected and feels more comfortable – for greater calm, performance, and well-being.

VERSATILE USE – IDEAL FOR:

STABLES & STALLS

Reliable protection for horses in stalls and stables.

PASTURE & PADDOCK

Ideal for use on pastures, in paddocks, and during turnout.

TRAVEL & TRANSPORT

Perfect for competitions, trips, and during transport.

CARE & GROOMING

Supports your daily grooming routine for greater well-being.

TIPS & RECOMMENDATIONS FOR BEST PROTECTION

USE REGULARLY

For optimal protection, apply daily or as needed – especially in the morning and evening hours.

BEFORE PEAK INSECT ACTIVITY

Spray before turnout in the field or before the pasture period.

IN CASE OF SWEAT & MOISTURE

Reapply after heavy sweating, rain, or washing to maintain protection.

KEEP THE ENVIRONMENT CLEAN

For best results: keep stables and surroundings clean. Remove manure regularly and eliminate feed residues.

LONG-LASTING PROTECTION

Not only in summer! Also in spring and autumn, pay attention to insect activity and provide timely protection.

INSECT REPELLENT SPRAY FOR HORSES

FREQUENTLY ASKED QUESTIONS (FAQ)

The insect repellent spray with geraniol offers a fast and reliable solution to keep annoying insects away – ideal for horses in the stable, on pasture, and on the go. For greater well-being and undisturbed moments.

HOW DOES THE INSECT REPELLENT SPRAY WORK?
The spray contains geraniol, which effectively repels insects. This natural active ingredient disrupts the insects' orientation and keeps them away.

WHICH INSECTS DOES THE SPRAY REPEL?
Ideal against flies, horseflies, mosquitoes, ticks, ants, and many other annoying insects.

CAN I ALSO USE THE SPRAY ON YOUNG HORSES?
Yes, the spray can also be used on foals and young horses. Avoid contact with eyes, mouth, and open wounds.

HOW OFTEN SHOULD I APPLY THE SPRAY?
As needed. If there is heavy insect activity, we recommend reapplying the spray every 4–6 hours.

HOW LONG DOES THE EFFECT LAST?
The effect lasts for several hours, depending on the weather, sweating, and the horse's activity. Reapply as needed.

CAN I USE THE SPRAY IN ANY WEATHER?
Yes, the spray is effective in both sunny and slightly humid weather. Reapply after heavy rain.

CAN I ALSO USE THE SPRAY UNDER THE SADDLE?
Yes, the spray is suitable for the entire body. Let the saddle area dry well before saddling up.

IS THE SPRAY SUITABLE FOR SENSITIVE HORSES?
The spray is well tolerated and contains no aggressive chemicals. For sensitive horses, we recommend testing a small area first.

DOES THE SPRAY LEAVE STAINS ON THE COAT OR EQUIPMENT?
When used properly, the spray does not leave any stains. Avoid direct contact with synthetic materials or leather.

IS THE SPRAY ALSO SUITABLE FOR RIDERS AND PEOPLE?
The spray was specially developed for horses. For people, we recommend using a separate insect repellent.

IS THE SPRAY ENVIRONMENTALLY FRIENDLY?
Yes, the spray contains geraniol, a naturally derived active ingredient, and is biodegradable when used as directed.

SERVICE & SAFETY INFORMATION

SAFETY INSTRUCTIONS:

INSTRUCTIONS:

- **Shake well before use:** Since the spray contains natural oils, some ingredients may settle. Use only a well-mixed product.
- **Do not apply in direct sunlight:** It is best to apply in the early morning or late evening to prevent surface discoloration or damage to plants.
- **Test on a sensitive surface before use:** First test on an inconspicuous area and wait 24 hours.
- **Keep out of reach of children and pets:** Although it is of plant origin, avoid contact with the eyes or mouth.
- **Store in a cool, dry and light-protected place:** Optimal storage temperature: 10–20 °C (50–68 °F). Protect from frost and direct sunlight.
- **Do not release into the aquatic environment:** The product must not be discharged into ponds, aquariums or drains.
- **Gloves are recommended:** Wear gloves when spraying and, if necessary, safety goggles, especially with frequent use or on large surfaces.
