BAuA REGISTRATION NUMBER

N-121070

Product type: PT 19 – Repellent
Use biocidal products with caution.
Always read the label and product information before use.

WARNING

LICE INFESTATION – A COMMON PROBLEM

Head and body lice are small, wingless insects that feed on human blood and can settle in the hair, on the scalp, and in textiles and upholstery. They reproduce quickly and lay eggs (nits), which can cling to hair or fabric fibers.

TYPICAL SIGNS OF AN INFESTATION:

- Itching on the scalp, neck, behind the ears, or on the body
- Visible lice or nits in the hair, on clothing, or in textiles
- Small white or yellowish nits firmly attached to hair strands
- Restlessness, sleep disturbances, or concentration problems
- Redness or small scratch marks

WHERE DO LICE HIDE?

Lice can be found in warm, protected areas such as:

BEDDING & PILLOWS

CLOTHING & TEXTILES

UPHOLSTERY & SOFAS

CARPETS & RUGS

JACKETS & COATS

CAR SEATS & CHILD SEATS

PROTECT YOUR HOME – FROM LICE & NITS

The lice spray helps to create an unfavorable environment for lice and nits, thereby preventing an infestation – for greater hygiene and safety.

POWER

LICE SPRAY

WORKS INSTANTLY & EFFECTIVELY

SO SIMPLE – THE BEST PROTECTION IN 4 STEPS

1 PREPARE

Thoroughly clean textiles, upholstery, and surfaces and remove loose debris.

2 SPRAY

Spray the lice spray evenly from a distance of approx. 20–30 cm onto the affected or at-risk areas.

3 LET IT WORK

Allow to dry completely for best results. Do not wipe or cover for at least 4–6 hours.

4 ENJOY PROTECTION

The spray forms a protective barrier and reliably keeps lice and nits away.

IDEAL APPLICATION AREAS

BEDDING & PILLOWS

Spray mattresses, bed linen, pillows, and blankets thoroughly for optimal protection.

UPHOLSTERY & SOFAS

Treat upholstery, sofas, armchairs, and cushions – common hiding places for lice – regularly.

CLOTHING & TEXTILES

Spray clothing, curtains, blankets, towels, and other fabrics and allow to dry.

CARPETS & RUGS

Treat carpets, rugs, and floor mats regularly, especially in case of an infestation.

JACKETS & COATS

Spray jackets, coats, and outdoor clothing after wearing, especially during the cold season.

CAR SEATS & CHILD SEATS

Also treat car seats, seat belts, and cushions regularly to help prevent infestations.

TIPS & RECOMMENDATIONS FOR BEST PROTECTION

REGULAR USE

Use as a preventive measure every 7–10 days. In case of an acute infestation, spray for 3 consecutive days and then repeat weekly.

WASH TEXTILES AT HIGH TEMPERATURES

Wash textiles at at least 60 °C and allow them to dry completely in the dryer to eliminate lice and nits.

VACUUM THOROUGHLY

Vacuum mattresses, upholstery, carpets, and crevices thoroughly. Dispose of the vacuum bag immediately.

TREAT ALL HIDING PLACES

Pay special attention to seams, folds, cracks, corners, and other hard-to-reach areas.

KEEP THINGS TIDY

A tidy environment offers fewer hiding places for lice. Clean regularly and air out rooms.

STAY CONSISTENT DURING AN INFESTATION

Only consistent use combined with thorough cleaning can effectively eliminate lice and prevent reinfestation.

IMPORTANT: Avoid contact with eyes, children, and pets.
Always test on a small, inconspicuous area first, especially on sensitive surfaces.

FREQUENTLY ASKED QUESTIONS

HOW DOES THE LICE SPRAY WORK?
The spray contains plant-based ingredients such as geraniol, which reliably keep lice and nits away. It works repellent, reduces the risk of re-infestation, and protects textiles, upholstery, and surfaces.

DOES THE SPRAY KILL LICE AND NITS?
No, the spray is not an insecticide and is not intended to kill lice or nits. It works repellent and helps to keep lice away and prevent their spread.

WHICH AREAS IS THE SPRAY SUITABLE FOR?
Ideal for beds, mattresses, bedding, pillows, upholstery, sofas, carpets, curtains, clothing, towels, fabrics, car seats, and more.

CAN I SPRAY THE PRODUCT DIRECTLY ON THE SCALP?
No, the spray is only suitable for use on textiles, upholstery, and surfaces. Do not apply it to skin, scalp, or hair.

HOW OFTEN SHOULD I USE THE SPRAY?
For prevention, use 1–2 times per week.
In case of an acute infestation or after washing, cleaning, or traveling, spray daily for 3–5 days.

HOW LONG DOES THE EFFECT LAST?
The effect lasts for several days, depending on the surface, room climate, and use. Regular application provides long-lasting protection.

CAN I USE THE SPRAY IN ALL ROOMS?
Yes, the spray can be used in all living areas – including bedrooms, children's rooms, and guest rooms.

DOES THE SPRAY DAMAGE TEXTILES OR FURNITURE?
When used as directed, the spray is gentle on materials. Always test on an inconspicuous area first. Do not use on delicate fabrics such as silk, leather, or untreated surfaces.

IS THE SPRAY SAFE FOR PEOPLE AND PETS?
When used properly, the spray is safe. Avoid contact with eyes and mucous membranes. Keep out of reach of children and pets.

CAN PETS LIE ON BEDS AND SOFAS AFTER TREATMENT?
Yes, after the treated area has dried, it can be used again without concern. Make sure pets do not lick wet surfaces.

IS THE SPRAY SUITABLE FOR TRAVEL OR HOTEL STAYS?
Yes, it is ideal for prevention when traveling. Spray suitcases, bags, mattresses, and upholstery after returning home.

WHAT DOES THE SPRAY SMELL LIKE?
The spray has a pleasant, fresh scent thanks to geraniol and citronella oil, which most people find agreeable, while still keeping lice away.

HOW DO I DISPOSE OF AN EMPTY BOTTLE?
Completely empty the bottle and dispose of it for recycling according to local regulations.

SERVICE & SAFETY INSTRUCTIONS

SAFETY INSTRUCTIONS:

GUIDELINES:

- **Shake well before use:** Since the spray contains natural oils, some components may settle. Use only a well-homogenized product.
- **Do not apply in direct sunlight:** It is best to use the spray in the early morning or late evening to avoid discoloration of surfaces or damage to plants.
- **Test on a sensitive surface before use:** First test the product on a small, non-conspicuous area and wait 24 hours.
- **Keep out of reach of children and pets:** Although plant-based, avoid contact with eyes or mouth.
- **Store in a cool, dry place and away from light:** Optimal storage temperature: 10–20 °C (50–68 °F). Protect from frost and direct sunlight.
- **Do not release into the aquatic environment:** The product must not be discharged into ponds, aquariums, or drainage systems.
- **Use of gloves is recommended:** Wear gloves while spraying and, if necessary, safety goggles, especially with frequent use or on large areas.
