GREEN GUARDIA

PRODUCT MANUAL & INSTRUCTIONS FOR USE

PRODUCT NAME:

GREEN GUARDIA POWER MITE REPELLENT SPRAY FOR SMALL ANIMALS, 500 ML

For targeted control of mites on small animals and in their environment. For a mite-reduced environment and greater well-being.

1. PRODUCT DESCRIPTION:

BRIEF DESCRIPTION:

The GREEN GUARDIA mite repellent spray for small animals is a ready-to-use repellent spray for targeted use in the environment of small animals such as rabbits, guinea pigs, hamsters, and other small pets. The formula is based on plant extracts and essential oils, especially geraniol, which effectively repels mites and helps to reliably treat their typical hiding places such as cages, stalls, bedding, litter, and other contact surfaces.

2. WHAT IS THE MITE REPELLENT SPRAY FOR SMALL ANIMALS?

The product is a ready-to-use repellent spray with natural plant extracts and essential oils. It has been specially developed for use in areas that may be affected by mites in small animals. The application supports a hygienic environment and helps to significantly reduce the pressure from mite infestations.

3. MITE INFESTATION IN SMALL ANIMALS:

- Mites often hide in bedding, hay, nesting material, cracks, and crevices.
- An infestation can cause itching, skin irritation, restlessness, and reduced well-being.
- Mites are particularly active in warm areas and can multiply quickly.
- Regular cleaning of bedding or bedding changes, as well as in warm and humid areas, can increase mite numbers.
- Regular treatment of typical areas helps to protect your small animals.

4. INGREDIENTS:

Water, alcohol, neem oil, citronella oil, geraniol, auxiliary substances (emulsifiers, preservatives)

USE BIOCIDES WITH CAUTION.
ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.

BPR Registration Number: N-121599
Product Type: PT 19 – Repellents and Attractants

FOR HEALTHY SMALL ANIMALS & A MITE-REDUCED ENVIRONMENT.

GREEN GUARDIA

POWER

MITE REPELLENT SPRAY FOR SMALL ANIMALS

WORKS INSTANTLY & EFFECTIVELY

EASY TO USE FOR A MITE-FREE ENVIRONMENT AND GREATER WELL-BEING.

EASY TO USE – IN 4 STEPS

1 PREPARE

Thoroughly clean the hutch, cage, enclosure or aviary. Remove loose bedding, hay, food residues and dirt. Remove the animals or keep them away briefly during application.

2 SPRAY

Spray the product evenly from a distance of about 20–30 cm (8–12 inches) onto all affected surfaces: bedding, hiding places, nesting boxes, accessories and living areas. Also spray grids, walls and enclosures.

3 LET IT WORK

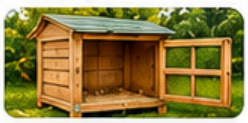
Allow the spray to dry completely for optimal effect. Let it work for at least 4–6 hours. During this time, keep the hutch, cage or enclosure well ventilated.

4 ENJOY PROTECTION

The spray forms a protective barrier and helps to keep mites away reliably. Use regularly for long-lasting protection, a mite-free environment and healthy small animals.

AREAS OF APPLICATION

HUTCHES & ENCLOSURES
On all surfaces in hutches, cages and outdoor enclosures.



NESTING BOXES & HOUSES
Spray inside and outside nesting boxes and houses to prevent mite infestation.

BEDDING & RESTING AREAS
Apply to bedding, sleeping mats, blankets and other resting areas.

GRIDS & WALLS
Treat grids, walls, floors and cracks regularly.

HAY & ACCESSORIES
Spray hay racks, feeders, waterers and other accessories.

TIPS & RECOMMENDATIONS FOR OPTIMAL PROTECTION

REGULAR USE
For prevention, use 1–2 times per week.
In case of an active infestation, use on 3 consecutive days, then repeat 1–2 times per week.

THOROUGH CLEANING
Regularly clean the hutch, cage and accessories. Remove old bedding, food residues and dirt. Cleanliness is the best prevention.

GOOD VENTILATION
Ensure fresh air in the hutch or cage. Proper ventilation reduces humidity and makes it harder for mites to survive.

DRY ENVIRONMENT
Mites prefer humid conditions.
Keep the hutch, cage and bedding dry.

COMBINE FOR THE BEST PROTECTION
Combine regular use of the spray with thorough cleaning and replacement of bedding for optimal results.

ALWAYS CHECK FOR INFESTATION
Regularly inspect nesting boxes, bedding and hiding places for possible signs of mites.
Early detection helps to prevent a serious infestation.

IMPORTANT: Avoid contact with eyes, skin and mucous membranes.
Do not spray directly on animals or on open wounds.

GREEN GUARDIA

POWER

MITE REPELLENT SPRAY FOR SMALL ANIMALS

WORKS INSTANTLY & EFFECTIVELY

The mite repellent spray with geraniol effectively helps to repel mites from small animals and their environment. It works quickly, is easy to use, and ensures a mite-free environment and greater well-being.

FREQUENTLY ASKED QUESTIONS (FAQ)

HOW DOES THE MITE REPELLENT SPRAY WORK?
The spray contains geraniol, which effectively repels mites and prevents their establishment. It works quickly, is easy to use, and ensures a mite-free environment.

DOES THE SPRAY KILL MITES?
No, the spray does not kill mites. It effectively repels them and prevents them from settling and multiplying.

WHICH SMALL ANIMALS IS THE SPRAY SUITABLE FOR?
Suitable for rabbits, guinea pigs, hamsters, rats, mice, chinchillas and other small animals.

CAN I SPRAY THE PRODUCT DIRECTLY ON MY ANIMALS?
No, do not spray the product directly on the animals. Use it only in the surrounding environment, such as the hutch and resting areas.

HOW OFTEN SHOULD I USE THE SPRAY?
For prevention, use it 1–2 times per week. In case of a severe infestation, apply it for 3 consecutive days, then repeat 1–2 times per week.

HOW LONG DOES THE EFFECT LAST?
The effect lasts for several days, depending on the environment, air circulation and usage. Regular application ensures long-lasting and optimal protection.

CAN I ALSO USE THE SPRAY IN NESTING BOXES AND HOUSES?
Yes, the spray is ideal for nesting boxes, houses and all areas where your small animals stay.

CAN I USE THE SPRAY ON GRIDS, WALLS AND BEDDING?
Yes, the spray is suitable for grids, walls, bedding and other surfaces in the hutch or enclosure.

IS THE SPRAY ALSO SUITABLE FOR YOUNG ANIMALS?
Yes, the spray can also be used for young animals. Ensure good ventilation.

IS THE SPRAY SAFE FOR MY SMALL ANIMALS?
Yes, when used as directed, the spray is safe for your small animals. Avoid contact with eyes, skin and mucous membranes.

DOES THE SPRAY HAVE A STRONG SMELL?
No, the spray has a pleasant, natural scent of geraniol, which usually dissipates within a short time.

CAN I COMBINE THE SPRAY WITH OTHER PRODUCTS?
Yes, the spray can be combined with regular cleaning and the replacement of bedding for the best results.

HOW CAN I PREVENT A MITE INFESTATION?
Clean the hutch regularly, replace the bedding, ensure good ventilation and use the spray regularly to keep mites away.

HOW CAN I DETECT A MITE INFESTATION EARLY?
Regularly inspect nesting boxes, bedding and hiding places for signs of mites. Early detection helps to prevent a serious infestation.

IS THE SPRAY ALSO SUITABLE FOR TRANSPORT BOXES AND OUTDOOR ENCLOSURES?
Yes, the spray can also be used for transport boxes and outdoor enclosures. Make sure to treat all affected areas thoroughly.

SERVICE & SAFETY INSTRUCTIONS

SAFETY INSTRUCTIONS:

INSTRUCTIONS:

- **Shake well before use:** The spray contains natural oils; some components may settle. Only use the product after it has been well mixed.
- **Do not use in direct sunlight:** It is best to apply the spray in the early morning or late afternoon to avoid surface discoloration or damage to plants.
- **Test on a sensitive surface before use:** First try the product on a small, inconspicuous area and wait 24 hours.
- **Keep out of reach of children and pets:** Although it is plant-based, avoid any contact with the eyes or mouth.
- **Store in a cool, dry place and protect from light:** Ideal storage temperature: 10–20 °C (50–68 °F). Protect from frost and direct sunlight.
- **Do not release into the aquatic environment:** The product must not be discharged into ponds, aquariums, or drainage systems.
- **The use of protective gloves is recommended:** Wear gloves when spraying and, if necessary, safety goggles, especially for frequent use or on large surfaces.
